Maintenance and Improvement Projects

All 'R' routes are in the process of being graded. Fences and barricades are being installed to protect sensitive resources. Please respect these features and stay on routes and trails signed with brown numbered fiberglass markers.

There are good plants in the CCMA like this Franciscan flannelbush.

And there are bad plants in the CCMA like the noxious weed Yellow Star Thistle.

Attention Event Promoters:
Please provide photographs from your events to include in the May—June 2007 Bulletin.
